

2015 ReSource Community Partnership Awards

At the ReSource at the Transept annual celebration on October 3, these two outstanding organizations received Community Partnership Awards.

The ReSource Board of Trustees chose **RCF Group** to receive this year's Corporate Community Partnership Award because ReSource has benefitted from their long-term support of our mission. The RCF team has given its time through board and committee participation over the years. RCF Group has also been a long-standing and consistent financial sponsor and has been a champion of ReSource through their efforts to connect ReSource to surplus furniture and items needed by our non-profit members. All this is a result of a culture of corporate philanthropy at RCF Group. This culture was developed and modeled by its owners, Carl Satterwhite and Scott Robertson, nurtured by its Chief Operating Officer, Bryan Lindholz and carried out throughout their entire team.

Greater Cincinnati Behavioral Health Services is ReSource's Non-profit Community Partnership Award winner this year. Greater Cincinnati Behavioral Health Service's mission is to assist persons with mental illness and related barriers to lead productive and fulfilling lives. GCB has been innovative in developing leading edge practices and treatments to assist clients with serious mental illness, substance abuse and other challenges as they work toward recovery. The agency first became a ReSource member in 2000 and in 2008 it used ReSource to furnish four floors of new office space. We calculate that over the years, GCB has saved over \$200,000 by utilizing ReSource services! Saving and serving --- GCB was able to serve over 15,000 clients last year. We congratulate them on leveraging their ReSource membership wisely in order to put the most into their life-changing services.
